

RSC-15ZBS

Remote Scenario Control

Easy Access at Your Fingertips

- Remotely activates pre-programmed home automation scenarios
- Convenient and portable
- Compatible with other manufactures' ZigBee systems
- Expansion of home automation options

RSC-15ZBS wireless ZigBee Scenario Remote Controller offers users more convenience and flexibility, designed to easily trigger a pre-programmed home automation scenario. This smart remote scenario control can include up to four scenario conditions and you are free to create your favorite scenario conditions for different occasions. The scenario conditions govern the behaviors of lights, window roller shutters, garage door, electronic appliances, or other devices connected to a ZigBee home automation or security system. Your home can be easily controlled at your fingertips.

The battery-operated RSC-15ZBS is easy to install and is ideal for the expansion of home automation options in new or modern homes where cabling solutions are limited.

Features

- Remotely activates pre-programmed home automation scenarios
- Facilitates the use of four preset scenario conditions
- Compatible with other manufacturers' ZigBee systems
- LED serves as a transmission status indicator
- Simple and modern design fits in with any home decor
- IP41 waterproof standard
- Durable, scratch-resistant buttons
- Low battery detection
- Regular supervisory signals ensure proper operation
- Ideal for security and home automation usage

Specifications

Communication Protocol	ZigBee Pro Home Automation 1.2
Frequency	2.4GHz
Power Source	3V, CR2032 Lithium Battery x 1
Battery Life	5 years*
Operating Temperature	-10°C to 45°C (14°F to 113°F)
Operating Humidity	Up to 85% non-condensing
Dimensions	65mm x 38mm x 15mm

Note: Actual battery life may vary with product settings, usage patterns, and operating environment.
