

VRCP-DECT Series Voice Extender

Comprehensive Protection at Home

- Voice Extender via DECT network
- Voice Recognition
- Excellent Two-Way Voice Quality

VRCP-DECT is a Voice Extender that enables users to summon emergency help with voice recognition command or a single button press. VRCP-DECT has built-in voice recognition and can activate an emergency call to CMS with preset vocal commands or keywords. It is suitable for senior and medical care, multi-storied homes, and larger premises.

VRCP-DECT provides high-clarity, hands-free, two-way communication for making outgoing voice calls, and receiving incoming calls to summon help. Equipped with RF technology, VRCP-DECT-F1 has extended backup battery life.

VRCP-DECT has a powerful speaker and microphone built-in and can be easily mounted or placed anywhere on the premises. Having multiple VRCP-DECT placed at strategic locations throughout the home can create an extra network of safety. When an emergency happens, senior users can simply use the nearest VRCP-DECT to summon help.
